

# Life with a modern corporate travel platform

Ready to simplify your travel program while boosting savings and traveler satisfaction? We thought so.

See what life is like with (and without) Spotnana, a modern corporate travel platform and travel management company in one. We are modernizing the infrastructure of the travel industry in order to bring freedom, simplicity, and trust to travelers everywhere.

## Life With

## Life Without

### Boosted Savings

Save money with Spotnana by setting robust, dynamic policies for your business travelers that drive over 97% policy compliance. Pay only a flat per trip fee – no hidden costs or confusing fee structures.

### Spending More

Traveler spending is out of control, blowing past budgets without guidelines or feedback. Most TMCs charge dozens of service fees that rapidly add up.

### Seamless Solutions

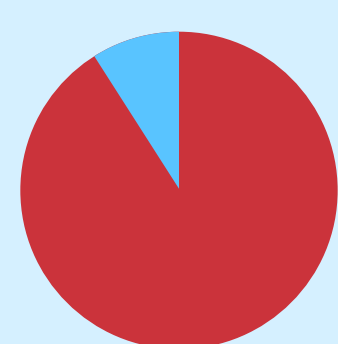

Spotnana's automation, self-service online changes, and experienced travel agents solve disruptions quickly with a 99% customer satisfaction score.

### Stranded Travelers

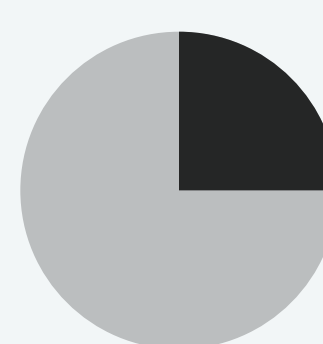

Travel disruptions ruin business trips for travelers while leading to extra service fees and wasted time for travel managers forced to manually resolve issues.

### More Than 90% of Bookings Online

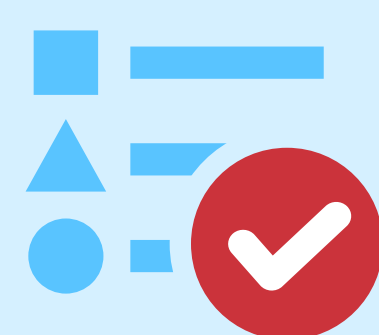

Increased savings and safety through Spotnana's centralized online platform that's as easy for you and your travelers to use as your favorite website.

### Limited Adoption Causes Leakage

Increased spending and safety concerns due to travelers booking outside of your policy. Leakage happens when travelers find better prices elsewhere or dislike their booking experience.

### Solving Proactively

Spotnana frees travel managers to focus on driving savings and the impact of their travel program.

### Reactive to Problems

Travel managers spend hours each week manually dealing with disruptions, cancellations and inefficiencies.

### Global Choice

The wide array of inventory on Spotnana's global platform boosts adoption and savings. Travelers see all of the available fares with clear indicators of what's in and out of policy, which is controlled and easy to update by the travel manager.

### Limited Options

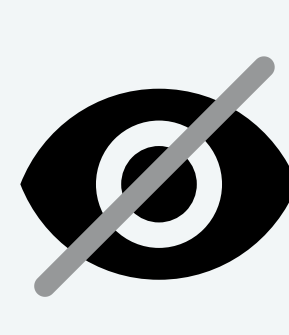

Other platforms lack full travel inventory and competitive prices, leading travelers to book on consumer sites when they don't see their preferred itineraries, fares and loyalty programs.

### Increased Clarity and Control

Achieve 97% policy compliance with Spotnana's real-time analytics and reporting to understand where spend is going and better bargain with your top suppliers.

### No Visibility

Fragmented spending and weak adoption mean you don't know where your travel budget is spent, making policy decisions and supplier negotiations difficult.

## About Spotnana

Spotnana powers unparalleled global travel experiences. We provide corporations with an end-to-end travel solution that includes an online booking tool and a global travel management company in one.
